

AAMVA PDF417 Studio — User & Feature Guide

Enterprise-grade desktop & web suite for AAMVA driver's license barcode generation, inspection, and multi-version compliance testing.

⚡ Quick-Start Guide (3 Steps)

- 1. Launch Executable:** Double-click `AAMVA PDF417 Studio 1.0.0.exe` (standalone executable — no install needed).
- 2. Select Jurisdiction & Profile:** Pick a state (e.g. *California, Illinois*) or choose a preset sample.
- 3. Generate & Export:** Edit credentials with live validation, then click **Download PNG**, **Download SVG**, or **Copy String**.

🔥 Key Features & Technical Architecture

State-Level Version Filtering

Automatically filters active AAMVA versions per state (e.g. `v08`, `v09`, `v10`). Non-circulating legacy specs (15-20 years old) are automatically hidden on a per-state basis.

Live Remote Rule Synchronization

Syncs real-time state version mappings as US jurisdictions update DMV card layouts. Connect custom S3/GitHub endpoints, commercial identity APIs, or use default offline rules.

Strict Input Validation & Tooltips

Enumerated inputs (Sex, Eye Color, REAL ID, Organ Donor) use strict dropdowns. Text inputs enforce live regex matching (`YYYYMMDD`, `070 in`, `180 1b`) with interactive `(?)` tooltips.

Dual Studio & Vector Export

Features visual Variable Form Studio and Raw Payload Inspector with byte counters, high-DPI 300+ PNG, SVG vector download, and string clipboard copy.

Live Sync Endpoint Provider Options

Sync Source	Configuration / Target	Description
Self-Hosted Endpoint (Default)	<code>https://your-domain.com/aamva-rules.json</code>	Host custom state version JSON feeds on AWS S3, GitHub Raw, or Gist.
Commercial Identity SDK APIs	IDScan.net / Scandit / Dynamsoft Cloud API	Connect commercial verification API feeds for enterprise automated updates.
Built-In Offline Engine	Offline Baseline (Aug 2026)	Bundled master ruleset. Operates 100% standalone without internet.

AAMVA Core Data Element Cheat Sheet

Tag	Field Name	Format / Allowed Options	Example
DAQ	License / ID Number	Alphanumeric (4-25 chars)	D12345678
DCS	Family / Last Name	Text (1-40 chars)	DOE
DAC	First Name	Text (1-40 chars)	JOHN
DBB	Date of Birth	Strict 8 digits (YYYYMMDD)	19900101
DBC	Sex / Gender Code	1 (Male), 2 (Female), 9 (Unspecified)	1
DAY	Eye Color	BLK , BLU , BRO , GRN , GRY , HAZ , etc.	BRO
DAJ	State Code	2-Letter Postal Abbreviation	IL
DDA	REAL ID Compliance	F (Full Compliance), N (Non-Compliant), M (Material)	F
